DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-3 and 7-8, drawn to an isolated DNA molecule of SEQ ID NO: 1 or variants thereof, classified in class 536, subclass 23.6 for example.
- II. Claims 4-6, 9-11, and 14-15, drawn to a hybridization probe, classified in class 536, subclass 24.3 for example.
- III. Claims 12-13, drawn to an antisense oligonucleotide, classified in class 536, subclass 24.5 for example.

The inventions are distinct, each from the other because of the following reasons:

Inventions I-III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions, the isolated polypeptide-encoding DNA molecule of SEQ ID NO: 1 of over 400 base pairs, the oligonucleotide hybridization probe of Group II, and the antisense oligonucleotide of Group III are unrelated because they all have a different structure and function.

Because the inventions are distinct for the reasons given above and have required a separate status in the art as shown by their different classifications, recognized divergent subject matter, and because the search required for one of the groups is not required for another restriction for examination purposes as indicated is proper.

Art Unit: 1638

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Russell Kallis whose telephone number is (703) 305-5417. The examiner can normally be reached on Monday-Friday 8:30-5:00.
